

Software Piracy Stops Right Here!

FOSS-ed for Windows

Conference 26 & 27 June 2007 HNB Towers - Auditorium

Tutorials 28 June 2007 University of Colombo

Here's your chance to learn about Free and Open Source Software applications that are available on the Windows Platform. From Web browsers and mail clients to graphics software and content management systems, it's all out there ready to download and use!

This is THE event for all you decision makers to find out how YOU can benefit from FOSS while still continuing to use Windows.

Keynote address by
Brian Behlendorf -
Co-founder Apache
Software Foundation
